Jeremiah Velasquez

jevsunbo04@gmail.com | github.com/Jevsunbo | linkedin.com/in/jeremiahvelasquez-ai | Las Vegas, NV

EDUCATION

University of Nevada, Las Vegas Las Vegas, NV
Bachelor of Science in Computer Science *Expected May 2028*
Relevant Coursework: Intro to Programming, Object-Oriented Programming, Discrete Mathematics

EXPERIENCE

New Vision Technologies Las Vegas, NV
AI Software Engineer (Contract) *January 2026 – Present*

- Designed and built the full UI for an AI-powered immigration assistant — 8+ screens from wireframe to deployed product, owning all layout and user interaction decisions
- Engineered a RAG pipeline using TypeScript and AWS S3 to power document retrieval for the assistant; system demoed to a live client
- Integrated Stripe and PayPal REST APIs to process real live transactions across 3 pricing tiers, enabling a functional multi-tier subscription model
- Delivered the project as part of a 2-person team, handling end-to-end client communication and requirements gathering across a 3-month build

PROJECTS

cpp-dsa-library | C++, CMake | 2026 | github.com/Jevsunbo/cpp-dsa-library

- Implemented a singly linked list and hash table from scratch using raw pointers and manual memory management — zero STL containers
- Enforced header/implementation separation with namespace dsa::; destructor handles full cleanup to prevent memory leaks
- Wrote assertion-based unit tests covering push, pop, reversal, cycle detection, and hash collision handling

Personal Portfolio Website | HTML, CSS | 2026 | jevsunbo.github.io/portfolio

- Built and deployed a personal portfolio website from scratch using pure HTML and CSS — no frameworks, no templates, no AI assistance
- Hosted on GitHub Pages; includes live resume link, contact section, and booking integration

TECHNICAL SKILLS

Languages: C++, TypeScript, HTML, CSS

Concepts: Data Structures & Algorithms, OOP, Big O Analysis, Manual Memory Management, REST APIs, RAG Pipelines, Version Control, Prompt Engineering

Tools: Git, GitHub, CMake, AWS S3, Stripe, PayPal, Linux/Unix

ACTIVITIES

UNLV Software Engineering Club Las Vegas, NV
Member 2025 – Present

- Participated in a hackathon, completed a Git/GitHub workshop, and engaged with industry professionals on real-world SWE practices
